History & Hope

You are invited to join Sacred Parent Education. We will be walking together and standing in strength. Parenting is a unique balance of honoring one's identity which includes the scars of the past, sharing our legacy, bridging the healing process for our children and remaining connected to our own tribal and indigenous identities.

Storytelling is a part of Native life, intrinsic to our culture. Stories help link generations with our ancestors and value system. Storytelling includes songs, dance, art, prayer, poetry to connect tribal members and illustrate our history. Stories are a means of healing, coping, connecting, communicating, recreating, and helping preserve cultures.

Let's gather together to strengthen our community and to live out our values in effort to raise our children into being good relatives. Parenting is one of the most challenging and rewarding things we will ever do. We have hopes and dreams for our children; what we want to provide for them, being the parent we want to be, aspirations of a better life, finding meaning and joy in the world around them. However, life is complicated, and we may find ourselves struggling or our child struggling in ways that feel like loss and grief.
